**Specification**

- Housing  
Steel, zinc plated
- Materials of the magnet:
  - Hard ferrite  
Temperature resistant up to 200 °C
  - SmCo  
Samarium, cobalt  
Temperature resistant up to 200 °C
  - NdFeB  
Neodymium, iron, boron  
Temperature resistant up to 80 °C
- RoHS

**1****Information**

Retaining magnets GN 50.1 are combined with the steel housing and the plastic ring into a system that shields and strengthens the magnet for optimal transmission of the magnetic flux onto the magnetic surface.

The retaining magnets are easy to fasten securely by side clamping, e.g. with a grub screw GN 913.2.
